20 January 2014

Dear parents,

We would like to remind you of our new initiative regarding communication between Jubilate School and parents. We have implemented the "school communicator" which is an innovative and exciting method of communicating. This will keep you up to date with what is happening at school. It updates automatically, and brings you all the latest news and calendar events. It also contains a photo gallery, a contact list and a range of useful information/

In order for us to improve our communication with you we encourage you to install the School Communicator on your desktop / laptop / mobile etc. There is no limit to the number of devices you may use it on. There are specific applications available for the various mobile phones (Blackberry, Android, iPhone). It is safe and secure and is used daily by more than ¼ million people worldwide. If you are already a user of this system, thank you for partnering with us. If you have not yet downloaded it, read on!

Getting started

Installing the School Communicator is dead simple! You can download the Communicator from the website: www.school-communicator.com/downloads . While downloading, click "save" and thereafter click "run".

Always up to date

News and relevant information is added regularly by the school. Your School Communicator will automatically update as new information is added: there is nothing that you need to do once you have downloaded it other than read the news!

How will the School Communicator affect your computer / device?

The School Communicator is a lightweight application and should have no noticeable impact on your computer / device. In some instances you might need to change your anti-virus or firewall settings to allow the School Communicator to run. If you are on a company network you might need to ask your network administrator to assist you.

Bandwidth

The School Communicator typically uses about 30Mb of data a month. This will fluctuate a little from month to month depending on how often we update the content but it should never be excessive.

Privacy

Any personal information shared with the School Communicator (including your registration details) is absolutely private, and may only be used by the school. It may not be sold or shared with any third party. The School Communicator servers are protected by Thwate to ensure no unauthorised access of your details.

Support

Please contact the School Communicator team if you experience any problems downloading or running the programme. Contact them on 0860 22 11 36 or support@school-communicator.com .

Please assist us by partnering with us in this exciting initiative. It will only work if you as parents work with us.

Kind regards,

Louise Stapelberg
Bursar and Trustee
